SUPPORTING PEDIATRIC BRAIN TUMOR RESEARCH

WINNING WITH WYATT RAISES MORE THAN \$165,000 IN 2025 TO SUPPORT PEDIATRIC BRAIN AND SPINAL TUMOR RESEARCH

CHICAGO, January 12, 2026 – Winning With Wyatt marked another impactful year in 2025, raising more than \$165,000 to advance pediatric brain and spinal tumor research. The funds will directly support research at leading medical institutions dedicated to improving outcomes for children facing cancer diagnoses and treatment.

“Each year, our community shows up in ways that truly inspire us,” said Kim Hare, president of Winning With Wyatt. “Because of their generosity, we are able to invest in critical research and help drive progress toward safer, more effective treatments for children battling brain and spinal tumors. We remain committed to raising awareness, funding research and championing meaningful change for these children.”

The foundation’s fundraising efforts were fueled by local signature events, including the Junior Board’s elementary school dance and the annual Night of Hope fall benefit, as well as initiatives for corporate and private donors across the country. Donations will benefit the Lurie Children’s Brain Tumor Program known for its advanced, specialized care, as well as the Children’s Brain Tumor Network (CBTN), a collaborative research initiative accelerating discoveries across institutions nationwide.

The Anne Hodge Group, Compass, served as the presenting sponsor of the 2025 fall event.

About Winning With Wyatt

Winning With Wyatt supports pediatric brain and spinal tumor research at leading institutions to find a cure for the disease that is the leading cause of cancer deaths in children. The foundation is also dedicated to building awareness of the impact brain and spinal tumors have on children and advocating for more advanced treatment. Winning With Wyatt was established after a child, family and community experienced the impact of pediatric brain tumors in multiple children.
