SUPPORTING PEDIATRIC BRAIN TUMOR RESEARCH

## **WINNING WITH WYATT DONATES \$100,000 TO LURIE CHILDREN'S BRAIN TUMOR CENTER**

CHICAGO, January 17, 2023 – Winning With Wyatt has announced a \$100,000 donation to the Ann & Robert H. Lurie Children's Hospital Foundation to support pediatric brain tumor research. The funding was made possible through the generous contributions as part of Winning With Wyatt's 2022 fundraising efforts, including the Winning With Wyatt Benefit in the fall.

“On behalf of the Winning With Wyatt foundation and it's many supporters, it's our honor to present the 2021 donation of \$100,000 to Lurie Children's Brain Tumor Center,” said Kim and Dan Hare, founders of Winning With Wyatt. “There is world-class pediatric brain tumor research being conducted through this program, and in partnership with the Children's Brain Tumor Network, to improve treatment and ultimately find a cure for pediatric brain tumors.”

Lurie Children's Brain Tumor Center offers highly specialized, state-of-the-art care for children with brain tumors, the most common solid tumor diagnosed in children. The center is designed specifically to treat children with brain and central nervous system tumors.

### **About Winning With Wyatt**

Winning With Wyatt supports pediatric brain tumor research at leading institutions to find a cure for the disease that is the leading cause of cancer deaths in children. The foundation is also dedicated to building awareness of the impact brain tumors have on children and advocating for more advanced treatment. Winning With Wyatt was established after a child, family and community experienced the impact of pediatric brain tumors in multiple children.
