SUPPORTING PEDIATRIC BRAIN TUMOR RESEARCH

WINNING WITH WYATT RAISES \$120,000 AT ANNUAL FALL FUNDRAISER

CHICAGO, October 10, 2022 – Winning With Wyatt raised \$120,000 to benefit pediatric brain tumor research at leading research institutions during its annual fall fundraiser held on October 1, 2022.

“We’re moved by the extreme generosity and dedication to our cause to find a cure for pediatric brain tumors shown at our fall fundraising event,” said Kim Hare, president of Winning With Wyatt. “Brain tumors are the number one cause of disease related death in children and yet research is drastically underfunded. Through our fundraising efforts, we’re helping give hope to kids – and families – living with a brain tumor diagnosis and funding research to help find a cure.”

Earlier this year, Winning With Wyatt held its annual Benefit Concert for Hope in recognition of Brain Tumor Awareness Month which occurs every May. Along with other funds raised from events throughout the year, the foundation will be used to support research at Lurie Children’s Brain Tumor Center, which offers highly specialized, state-of the-art care for children with brain tumors, as well as the Children’s Brain Tumor Network (CBTN).

About Winning With Wyatt

Winning With Wyatt supports pediatric brain tumor research at leading institutions to find a cure for the disease that is the leading cause of cancer deaths in children. The foundation is also dedicated to building awareness of the impact brain tumors have on children and advocating for more advanced treatment. Winning With Wyatt was established after a child, family and community experienced the impact of pediatric brain tumors in multiple children.
